Good-Bye Cracks

Permanent Solution To Recurring Cracks In Plaster Or Drywall, A Non-Flammable Liquid That Forms An Elastic, Preventive Film That Can Be Painted Over With Latex Or Oil Base Paint, Neutral In Color.

Good-Bye Cracks®
The fast, easy way to make sure the repairs you make to cracks in plaster, drywall and wood stay repaired. Just spray Good-Bye Cracks® over the repaired area — it goes on like paint, but dries to form an elastic cover that's flexible to keep cracks from reappearing. Say adios to cracks once and for all.

Use it on:
- Plaster,
- Drywall,
- Concrete,
- Wood,
- Masonry

and say Good-bye to cracks once and for all!
