PRODUCT SPECIFICATIONS For 2 x 6 Tongue and Groove

Description: Kiln-dried spruce or air-dried western red cedar, # 2 grade or better, milled to finished size.

Size: 1 ½" thick, 5 ¼" tall.

Details: ½" tongue, ½" groove. V-groove one side, reversible.

Coverage: 4 7/8" coverage.

Conversion Factor: 2.5 lineal feet = 1 square foot.

To convert square footage to lineal feet, multiply the length by the width to find the total square footage of the area needing coverage.

Multiply the square footage by 2.5 to convert to lineal footage for ordering.

Fasteners: Use flooring nail for loft areas, common nails for porch roofs. Use galvanized fasteners if using Cedar Tongue & Groove for decking.
