WDF320PAD

Dishwasher with AccuSense® Soil Sensor ENERGY STAR® Qualified

Dishwasher with AccuSense® Soil Sensor

Make sure dishes come out clean. The AccuSense® soil sensor determines how dirty dishes are and adapts the Normal cycle as needed for customized cleaning. This energy-efficient dishwasher is ENERGY STAR® qualified and holds 13 place settings. It cleans quietly at 55 dBA and remembers your last cycle so you don't have to. Plus, it cleans a lightly soiled load in half the time with the 1-Hour wash cycle, so you have clean dishes when you're in a hurry. It's all from the brand that can say no one has fewer repairs 18 years in a row.

1-Hour Wash Cycle

Adaptive Wash technology senses the needs of each load and adapts wash actions so your clothes always look their best and colors stay vibrant wash after wash.

Remembers Your Last Cycle

This dishwasher remembers the last cycle you picked and automatically chooses it for you the next time.

Triple Filtration System features a triple filtration system to remove food particles and other soils. This highly effective filtration system helps the wash system provide outstanding cleaning while using less water and energy.
