

Indoor 24-Hour Pre-set Timer, 2-C 368-1634

Instructions

1. **To set the current time:** Using a small coin (like a dime or penny) or similar item, rotate the dial counterclockwise until the arrow points to the current time. Note, PM hours are shaded.
2. **To connect the timer:** Plug device in to the timer and turn the device on. Plug timer into wall outlet.
3. **The timer program:** Once connected, the plugged in device will automatically turn on at 7:00 pm and turn off at 1:00 am.
4. **In case of power failure:** reset the timer as explained in step 1.

FOR INDOOR USE ONLY. DO NOT EXCEED RATED CAPACITY.
