Window & Door Trim

5" Lineal

CertainTeed window and door trim puts out the welcome mat to create a lasting first impression. Lineal trim adds a wider face profile that can help unify and accent a home's exterior, adding a design element that can be both subtle and distinctive. For even more personality and charm, add crown molding, above the door or window. It's a look you'll appreciate every time you cross the threshold into your beautiful home.

Explore Your Options

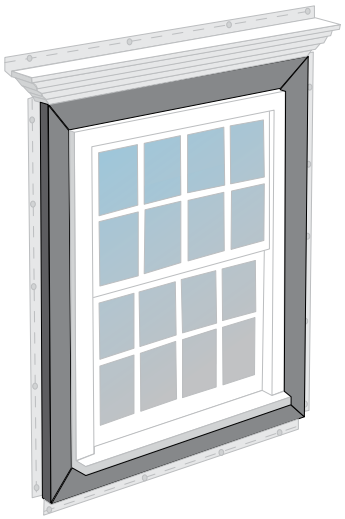

From window and door casing to lineals, CertainTeed offers a complete selection of virtually maintenance-free Vinyl Carpentry® to define your home.

Fast facts:

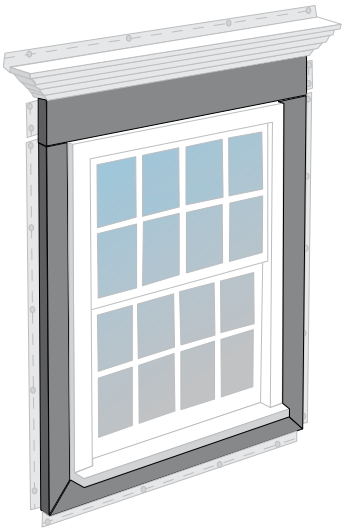

Crown molding dates back to the time of the ancient Greeks and Romans, used for "crowning" an architectural element.

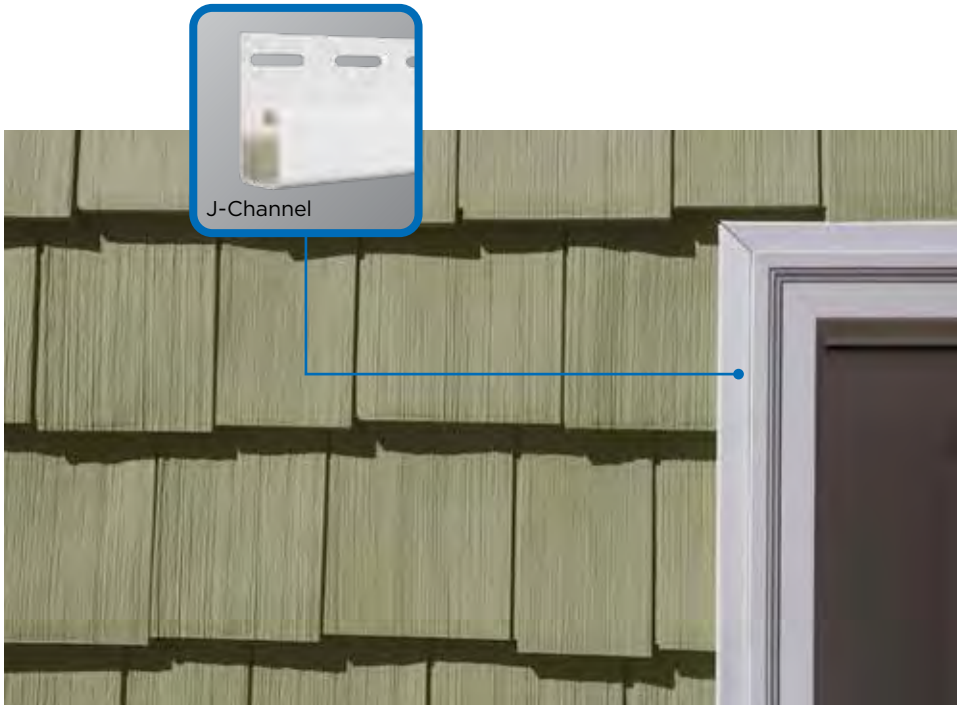

Simple
3/4" pocket J-channel surround.

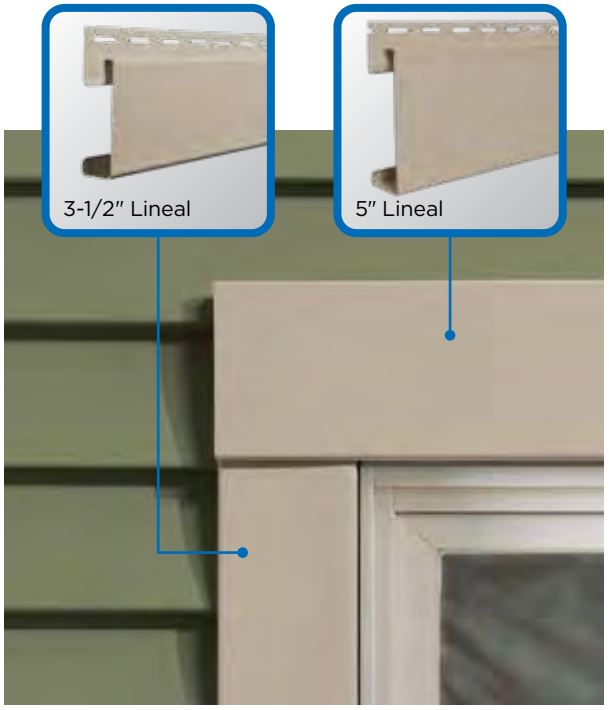

More Definition
Crown molding and crown molding end caps with 3-1/2" lineal header and 3-1/2" lineal surrounds.

Classic Enhancement
Crown molding and crown molding end caps with 5" lineal header, 5" header end caps* and 3-1/2" lineal surrounds.

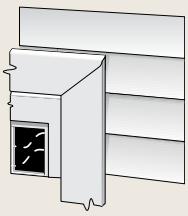

* Fabricated on site. Please refer to install manual CTS205 for complete instructions.

To view the complete line of colors go to page 40.

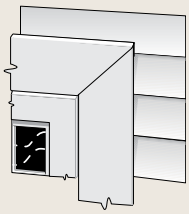

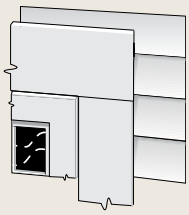

Using combinations of lineals offers that little touch to add personality on any home.

2-1/2" Window and door casing

3-1/2" Lineal System

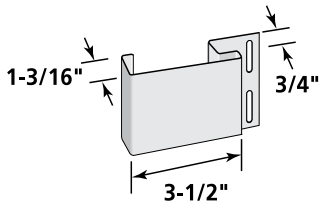

5" Lineal header, 3-1/2" vertical Lineal

Select Your Products

3-1/2" Lineal

For use with a window and door starter around windows and doors as a casing. The 3/4" channel receives siding panels. Can also be used to create a corner system.

Corner Systems

Traditional 3-1/3" Outside Corner with Inside Cornerpost

Traditional SuperCorner

Take your home from ordinary to extraordinary. Don't settle for traditional narrow corner trim with no depth. Go for something distinctive and beautifully unique. Blend traditional lap siding seamlessly around every bend with Vinyl Carpentry® Corner Systems or Cedar Impressions® Shakes and Shingles with outside mitered corners. Create elegance with an edge by adding corner systems and treatments that frame your home with distinction.

Explore Your Options

Fast fact:

The average home has 88 linear feet of corner posts.

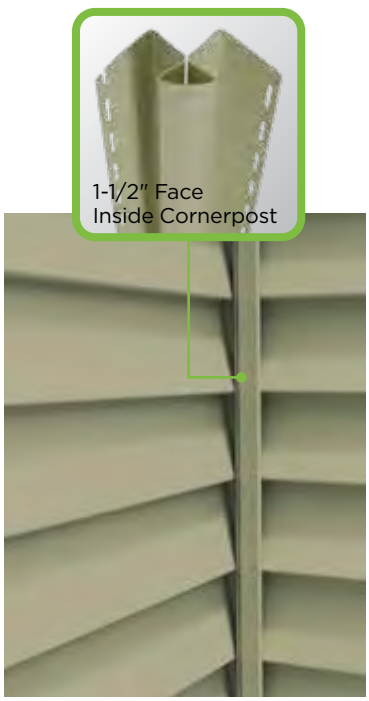

From outside corners to inside corners, from subtle to bold, CertainTeed provides the options to define the corners of any house.

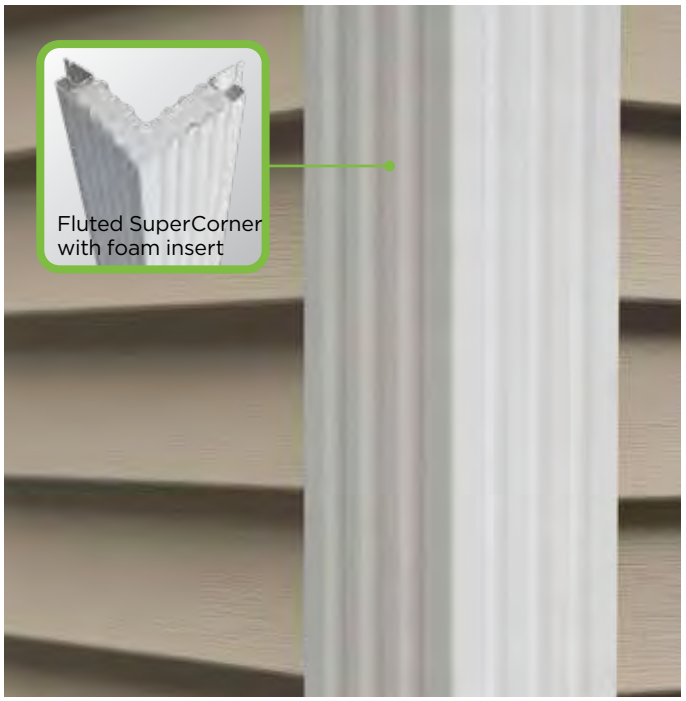

Simple
Traditional Cornerpost with matching siding color for less definition.

More Definition
Traditional SuperCorner™ with foam insert creates more definition with a wide 6" face.

To view the complete line of colors go to page 40.

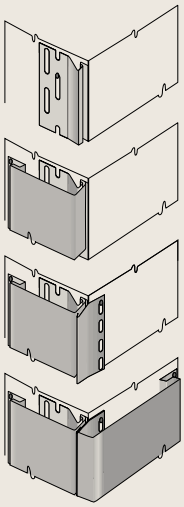

Federal corner

Starter strips are required to build 4 piece corners and federal corners.

In addition to the traditional one-piece corners, lineals can be combined to create inside and outside corners.

Accents

Cedar Impressions S6-1/3" Perfection Octagon

When it comes to adding a personal touch to your home's exterior, accents bring out the best in any style of house. Grab attention with subtle or exciting color combinations. Add charm with Board & Batten. Or create a custom-crafted wood look with beautifully textured, Cedar Impressions® shingles and shakes. CertainTeed makes it easy to create a masterpiece you'll enjoy for years to come.

Explore Your Options

CertainTeed's complete selection of exterior product options is tailor-made to take advantage of the exciting mix-and-match trend: combining various materials, textures, styles and colors to create truly unique exterior designs.

With multiple profiles of Cedar Impressions®, Board & Batten and Vertical Siding to choose from, the possible ways to accent your home are endless.

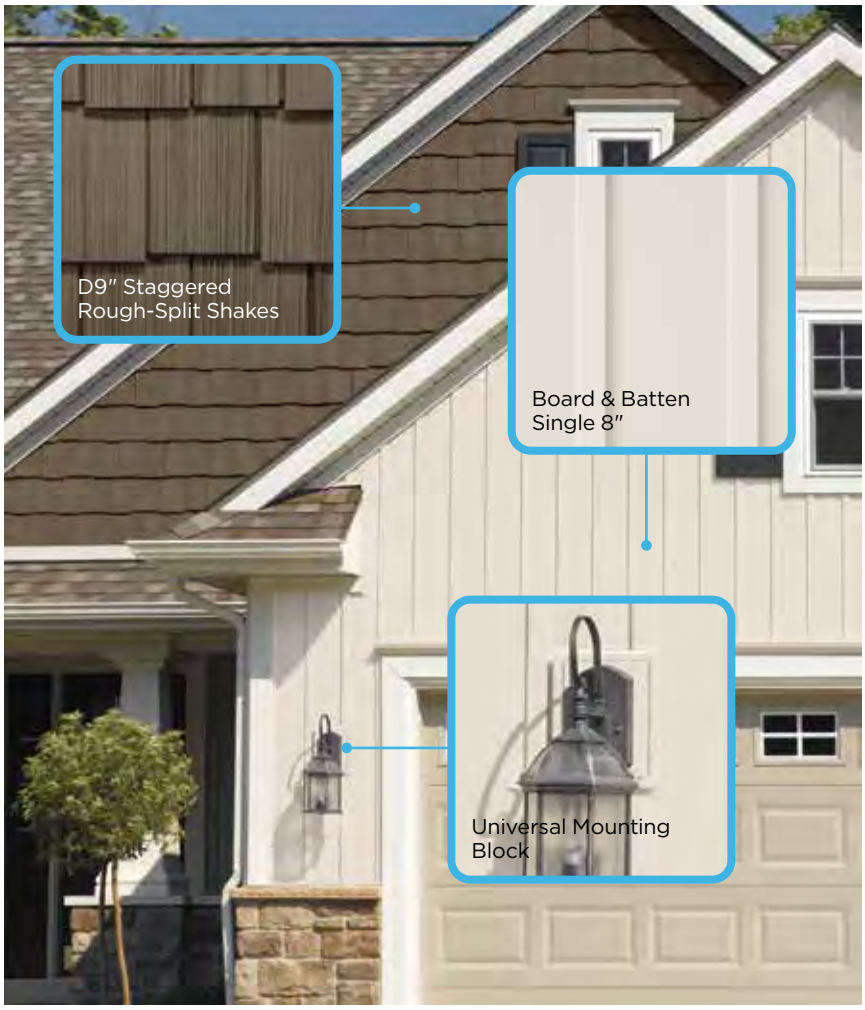

Fast fact:

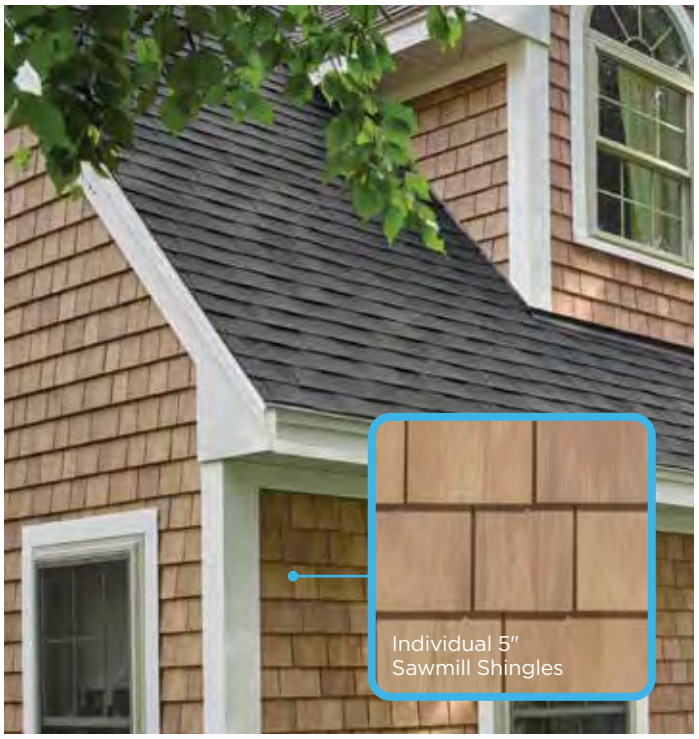

Are shingles and shakes the same thing?

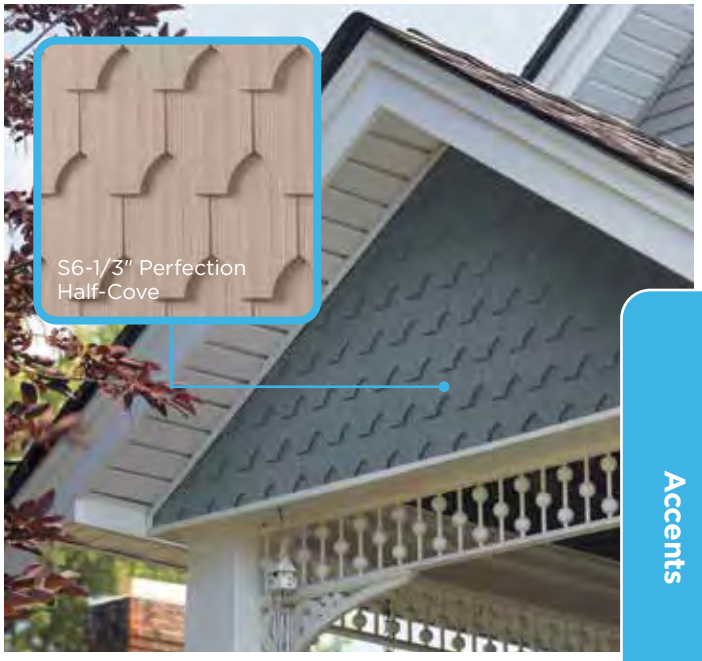

Usually, a shingle is sawn on both sides and is thinner at the butt than a shake. A shake is typically split on one or both sides. Shakes are generally thicker with more aggressive, rougher texture that is far less precise than that of a shingle.

Wall & Soffit Transitions

Attractive transitions between styles, architectural elements and colors are the best way to ensure a uniform design on any home. CertainTeed offers a wide variety of wall and soffit transition options for you to create beautiful transitions, while providing protection from damaging moisture.

Explore Your Options

Trim provides a beautiful transition between two styles of siding. On long expanses of board & batten or soffit, a trim piece offers a way to add a signature outline or focal point. Also, consider a trim piece to transition from the wall up to the soffit.

Fast fact:

Band [Belly] Board:

Typically 5"- 6" reveal, can be used as a starter course for siding, a frieze board, a bold line separating levels of a house, or a transition piece in installations where siding alternates between horizontal, vertical and/or specialty profiles. (Source: Vinyl Siding Institute)

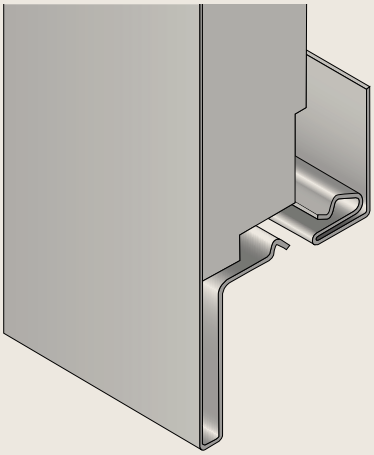

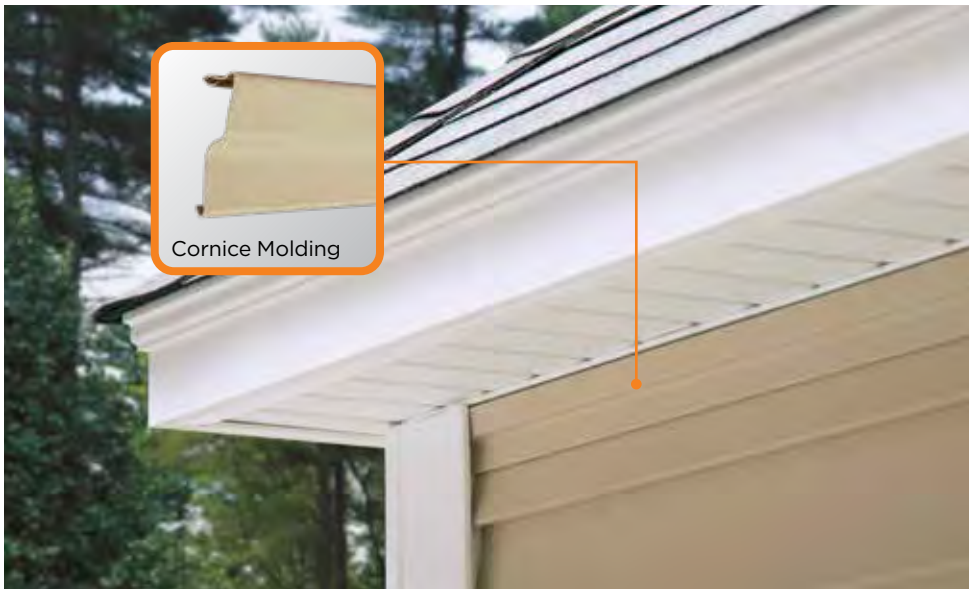

To view the complete line of colors go to page 40.

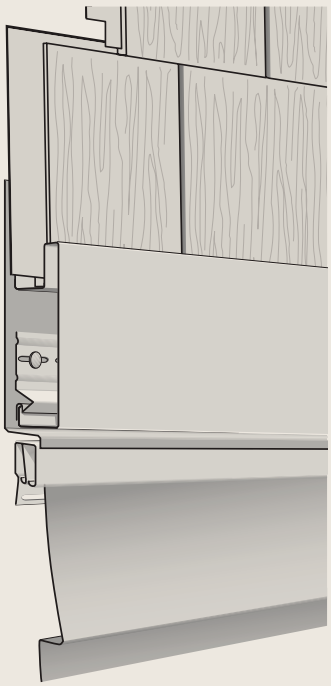

Create a transition using a band board with foam insert, or create your transition using a wide-faced lineal.

A **band board** makes an excellent wall transition.

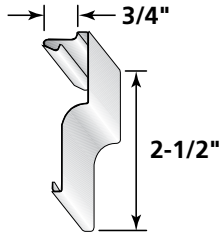

Lineals can transition lap siding to Cedar Impressions.

Look what you can achieve:

Find Your Perfect Color Mix

Designers are using every conceivable color combination to create distinctive exterior designs with a modern sensibility. You can do the same thing with your home. The optimum color blend has the power to bring out the best features of your home. Whatever your color goal is, CertainTeed can help you reach it.

This home has a cool theme (selection of cool grays), but it also has a subtle theme because these grays have similar color intensity and value.

This home has a warm theme and the colors are stronger than a typical home.

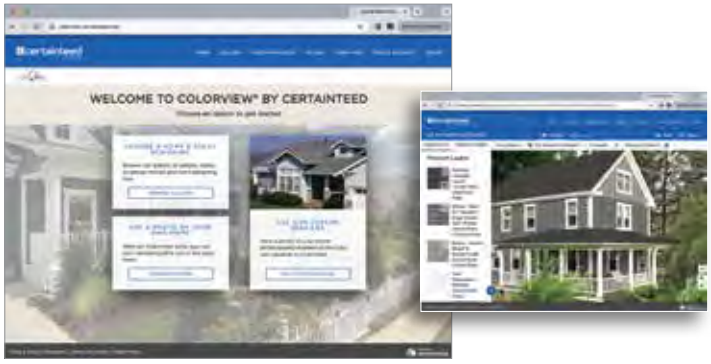

Trim Color Combinations

Traditional white trim accentuates windows cleanly with any color siding, as shown below. Other options (left) include a more subtle combination, with trim and siding closer in hue and intensity; or a reversal of dark trim with light siding as a powerful way to frame your home.

Siding: Cedar Impressions Double 7" Perfection Shingles in sterling gray and Single 6-1/3" Perfection Scallops in granite gray
Trim: Restoration Millwork in natural white. Corner Trim is Cedar Impressions matching mitered corner in sterling gray
Roof: Landmark in moire black

CertainTeed Visualization and Design Tools

Explore the possibilities

ColorView® allows users to choose from a library of stock homes to create their own custom exterior using the many color, style and types of CertainTeed roofing and siding products.

ColorView® DIY takes ColorView to the next level in home exterior designing. You or your customers can upload a photo of their home, select the siding, roofing, and trim areas they want to update, and start exploring which CertainTeed products look best on their home.

Just like ColorView DIY, you or your customers can upload a photo of a home using **ColorView Pro**.
But instead of masking the products onto the home yourself, our professionals will do it for you for a small fee.

Visit the color tools page:
www.certainteed.com/colorview

ColorCoach™
A simple web-based tool that acts as a virtual color swatch book. You can save different combinations, use them in ColorView and share them via social media for second opinions.

What is Your Color Comfort?

Our user-friendly color tools are designed to help you every step of the way. This chart shows which tool will work best for your color comfort level.

	ColorCoach	ColorView	ColorView DIY	ColorView Pro
Novice You are not sure about colors and where to start.	X			
Intermediate You understand color and enjoy experimenting with color combinations but are not exactly sure which color direction you want to go.		X		
Expert You already know what colors you want to use, but would like to see how the products available in your color theme will look together on your home.			X	X

CertainTeed products are designed to work together and complement each other in color and style to give any home a beautiful finished look.
